

Woodlot Planning Workshops

*The Federation of BC Woodlot Associations, in partnership with the Ministry of Forests invites woodlot licensees, consultants, and Ministry staff to workshops on: 1) the Woodlot License Plan (WLP) Template and Due Diligence under the **Forest and Range Practices Act (FRPA)**, and 2) an overview of the MOF Electronic Forest Management Initiative*

This first portion of these workshops will provide an in-depth understanding of the Woodlot License Plan and the legal construct of FRPA. This section is most relevant for those woodlot licence holders and consultants who are preparing a Woodlot Licence Plan or who need to prepare a Woodlot Licence Plan in the near future. Participants will get information to help them begin their own WLP. The second portion of the workshop will focus on the MOF Electronic Forest Management Initiative. Topics that will be explained include: electronic submission framework expectations of licensees as of April 1, 2005, new tools, and system and service provider options available to small tenure licensees.

The delivery schedule for sixteen workshops province-wide is listed below. All licensees, their consultants, and Ministry staff are encouraged to attend. All sessions will have the same agenda and learning objectives but may be offered at different times during the day. Participant materials will be provided.

Please contact the facilitator and let them know you are coming so they can make the necessary arrangements. There is no attendance fee. Drop-ins are welcome to attend.
