

NOTICE TO ALL COMMUNITY CONNECTOR USERS

Effective **February 5, 2012** there will be a radio frequency change at 31.5km on the Community Connector. The new frequency will be:

RUSTAD BROS 158.790

Rustad will be used from 31.5km to 80km on the Connector. 1km – 31.5km on the Connector will remain on the Clear Lake Frequency.

New signs will be posted at 31.5km and 80km on the Connector, as well where the Connector junctions with the Long Lake, South Nation and Witter Roads.

This change is to address the high volumes of traffic on the road and eliminate drivers “walking on” each other while calling km’s.
