

Vanderhoof & Fort St. James Sustainable Forest Management Plans

Are you interested in Forest Management in the Vanderhoof, or Fort St James Forest Districts? If so, Canfor and BC Timber Sales would like to invite interested parties to participate on either of the CSA Public Advisory Groups associated with their SFM certification in the Vanderhoof and Fort St James Defined Forest Areas. Participation on this group would involve attending 3 to 4 meeting per year related to monitoring, implementation and continual improvement of performance relative to Sustainable Forest Management.
