

Fort Nelson's Forestry Roundtable Committee

Potential End Users Contact List

Fort Nelson's Forestry Roundtable Committee (FNFRT), a committee of the Regional Council of the Northern Rockies Regional Municipality (NRRM), has created this list to assist Oil and Gas Companies to connect with local end users and to encourage the utilization of wood fibre wherever and whenever possible.

The FNFRT is pleased with the progress the Oil & Gas Commission (OGC) has made in their actions to encourage wood utilization with the introduction of a Fibre Utilization Form. Because of the usefulness of this form, the FNFRT requests that copies of all Fibre Utilization Forms be submitted to the FNFRT at the same time that they are sent to the OGC, so that information on available wood is disseminated to all interested local parties.

Please note that these end users take into account species, transportation, market, price and many other factors. Therefore please forward all Fibre Utilization Forms associated with sites within the NRRM (map attached) to the FNFRT.
