Title: Stumping An Interior Douglas-fir Stand To Reduce Impact of Phellinus Root Rot to the Regenerated Stand

Officer i/c: H. Merler/B. Ivanco

Location: Horseshoe Lake (Roche Lake)

Region/District: Kamloops Region/Kamloops Forest District.

Objectives:
1. To successfully reforest an Interior dry-belt Douglas-fir stand after clearcutting, stumping and planting.
2. Reduce damage impact to the regenerated stand from Phellinus weirii.
3. Compare survival and growth of planted Douglas-fir, lodgepole pine, and ponderosa pine on stumped and not stumped treatments.

Progress:
4. Fencing of area to be completed Spring 1988 or 1989.
5. Planting to be completed Spring 1989.
6. Detailed working plan in progress.
