TRIAL SUMMARY

Title: Research Trial of the VH Mulcher
Officer: Victor Hegan
Region/District: Prince Rupert/Lakes Forest District

Objective: This is an operational trial to determine if mixed mounds created by the VH Mulcher will provide a better growth environment for planted trees. In addition we will evaluate how brush mats and gromax will effect the long term survival and growth of planted seedlings.

Next Scheduled Assessment/Treatment: Trial to be established June 1993

Report Distribution: Working Plan/Library - Silviculture Branch
Prince Rupert Region - Library
Lakes Forest District - Library
