MAJOR PRIMARY TIMBER  
PROCESSING FACILITIES  
IN B.C.

- 1983 -

Timber Management Branch  
Ministry of Forests  
Victoria, B.C.

June, 1984

## FOREWORD

This is the 2nd edition of the revised Ministry of Forests' List of Major Primary Timber Processing Facilities in B.C. and refers to operating timber processing plants in the province which use logs as their main source of raw materials. No re-manufacturing plants are listed (Paper mills are the only exception). Information contained in this report pertains to 1983.

Not all plants in the province are listed; only those which meet specific performance criteria are listed. The main categories of processing plants, along with their respective performance criteria are listed as follows:

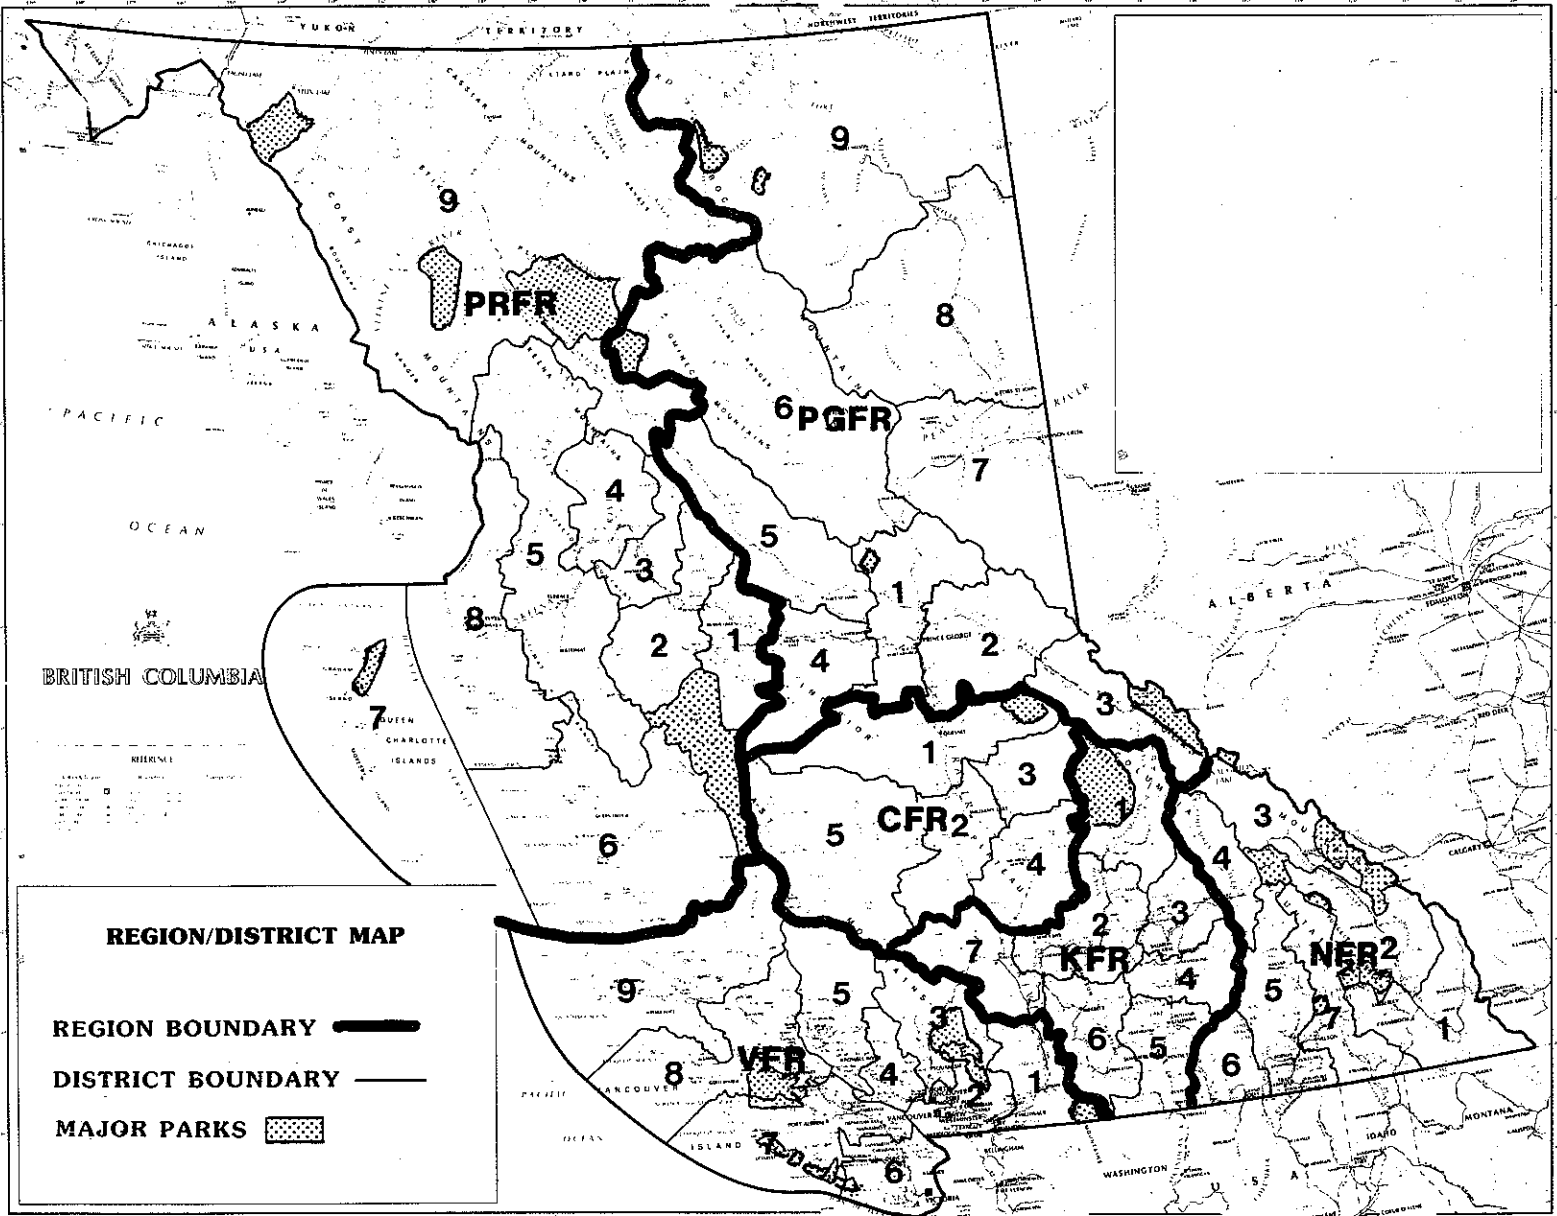

<u>Type of Mill or Plant</u>	<u>Performance Criteria</u>
1. Lumber Mills	: minimum 3 million foot-board measure (MMfbm) of lumber output per year  : minimum 15 thousand foot-board measure (Mfbm) of lumber output per continuous 8-hour shift; annual capacity is based on 480 shifts per year
2. Shake/Shingle Mills	: minimum 1000 squares of shake/shingle output per year; annual capacity is based on 480 shifts per year
3. Veneer/Plywood Mills	: all operating mills will be listed; measurement units are in square feet, 3/8" basis; veneer capacity is based on 480 shifts per year; plywood capacity is based on 720 shifts per year
4. Pulp/Paper Mills	: all operating mills will be listed; measurement units are in metric tonnes; annual capacity is based on 345 operating days per year.

Where a mill produces more than one product (eg. lumber and plywood; paper and market pulp), it will be listed under both types of plant.

Information regarding the mills are from Ministry of Forests' regional and district staff, trade publications, directories, annual reports and, in some cases, correspondence with the company or operator.

It is intended that this list will be updated on an annual basis and will be available, upon request, to the general public. Any errors or omissions in this list should be communicated to Director, Timber Management Branch, Ministry of Forests, Victoria, B.C. V8W 3E7.
