

## What's New for Version 2.01.11 - March 2005

### 1) Changes to ECAS Statuses (Coast and Interior)

- **Sent to Region (STR)** replaces **Accept (ACC)**
- **Sent to Region with Issue (SWI)** replaces **Forwarded (FWD)**
- **Transferred to GAS (GAS)** replaces **Approve (APP)**

The Ministry action names (or statuses) have been re-named. They still perform the same actions (movement of submissions to the Region or to GAS) but the buttons have new names and henceforth, stored as such in the audit history screen.

As indicated above, status wording changes will be shown in audit History, ADS Reports, Inbox, in code drop down and on the applicable ECAS screens (Inbox, Reference, and Control).

- 2) **Correction to Road Use charge attachment for Interior on ADS report (Interior only)**
- 3) **Correction to mandatory splats on Attachment Screens (Coast and Interior)**
- 4) **Improved error message when RPF information cannot be found from the Acknowledgements screens (Coast and Interior)**
- 5) **Removal of BCTS screen validation requiring BCTS Sales with effective dates on or after 2003-11-01 to have adjustment type = Fixed (Coast and Interior)**
- 6) **Correction to units shown for location distance for Coast on ADS reports (Coast only)**
- 7) **Bug fix (Coast only)- Correction to Weighted Truck Haul distance calculated on Cutting Authority Details Screen when using Helicopter Water drop**
- 8) **Bug fix (Interior only) - Correction to mapping of Barge/Ferry special transportation code to GAS**

### Colour Codes

**Means changes applicable to the Coast and interior;**

**Means changes applicable to the Coast only;**

**Means changes applicable to the Interior only;**
