

The following information is current as of	24/07/18
Incident name and number	Mount Conkle (K51243)
Incident Commander	Glen Burgess
Contact information	Information Officer: Noelle Kekula Phone: 250-319-4815 Email: Noelle.kekula@gov.bc.ca Hours: 8:00 a.m. – 8:00 p.m. only Media Contact: Marla Catherall Email: Marla.Catherall@gov.bc.ca Phone: 250 819-4191 Hours: 8:00 a.m. – 8:00 p.m. only
Fire camp	Okanagan Complex Fire Camp
Incident overview	This wildfire is classified as being held as we do not anticipate any further growth due to suppression tactics and current weather conditions. Fortunately, this fire did receive isolated showers yesterday.
Weather forecast	Today: Mainly sunny MAX TEMP: 28° to 32° MIN RH: 15% to 30% WINDS: NE-NW 10-20 km/h and NW 20-30 G 45 km/h near Kelowna and Peachland CHANCE OF LIGHTNING or DRY LIGHTNING is low.
Fire behaviour prediction	Potential for increased fire behaviour in all fuel types compared to yesterday if the winds materialize. Expect fire spread to be slope driven unless terrain is less than 30% slope. If winds are as strong as forecast then fire can spread across slope now. Fire spread caused by winds will generally be in a southerly direction. The Garnet valley is currently getting lighter winds than those that occur in the main Okanagan valley. This is expected to continue. RH's will be +/- 10% higher in the Garnet valley.
Challenges	This fire has many fingers (fingers are long narrow extensions of a fire projecting from the main body), which is proving to be a bit difficult as they can be spotty.
Yesterday's achievements	Progress has been made and the fire is exhibiting minimal fire activity as a result.
Today's objectives	Firefighters are continuing to extinguish hot spots 100 feet from the perimeter of this fire. Crews will continue to extend hose lays today.
