

The following information is current as of	July 25, 2018
Incident name and number	Glenfir (K51256)
Incident Commander	Glen Burgess
Contact information	Information Officer: Noelle Kekula Phone: 250-319-4815 Email: noelle.kekula@gov.bc.ca Hours: 8:00 a.m. – 8:00 p.m. only Media Contact: Marla Catherall Email: marla.catherall@gov.bc.ca Phone: 250 819-4191 Hours: 8:00 a.m. – 8:00 p.m. only
Fire camp	Okanagan Complex Fire Camp
Incident overview	32 hectares in size (estimated) 32 personnel on site (22 BCWS and 11 contract). Air support, as required. 9 helicopters are assigned to the complex. This wildfire is classified as under control
Weather forecast	Today: Mainly sunny MAX TEMP: 30° to 34° MIN RH: 15% to 30% WINDS: NW 20-30 G 45 km/h CHANCE OF LIGHTNING / DRY LIGHTNING: low
Fire behaviour prediction	Anticipate increased fire behaviour in all fuel types compared to yesterday where the winds materialize. Expect fire spread to be slope driven unless terrain is less than 30% slope. If winds are as strong as forecast then fire can spread across slope now. Fire spread <u>caused by winds</u> will generally be in a southerly direction.
Challenges	Challenges on this wildfire stem from the large and steep gullies that run through it that are hard to access. Direct sun exposure and little to no shade makes the working conditions tough for crews.
Yesterday's achievements	Yesterday, crews had success on the southeast gully by extinguishing hot spots in this area.
Today's objectives	Objectives today include continuing to extinguish hot spots that are burning in the numerous crevices found in the steep canyons and establishing better access to these areas.
<p>Out of Control: Describes a wildfire that is not responding (or only responding on a limited basis) to suppression action, such that the perimeter spread is not being contained.</p> <p>Being Held: indicated that (with the resources currently committed to the fire) sufficient suppression action has been taken that the fire is not likely to spread beyond existing or predetermined boundaries under the prevailing and forecasted conditions.</p> <p>Under Control: The fire has received sufficient suppression action to ensure no further spread of the fire.</p> <p>Out: The fire has been extinguished.</p>
