

The following information is current as of	July 28, 2018
Incident name and number	Goode's Creek (K51242)
Incident Commander	Glen Burgess
Contact information	Information Officer: Noelle Kekula Phone: 250-319-4815 Email: <a href="mailto:noelle.kekula@gov.bc.ca">noelle.kekula@gov.bc.ca</a> Hours: 8:00 a.m. – 8:00 p.m. only Media Contact: Marla Catherall Email: <a href="mailto:marla.catherall@gov.bc.ca">marla.catherall@gov.bc.ca</a> Phone: 250 819-4191 Hours: 8:00 a.m. – 8:00 p.m. only
Fire camp	Okanagan Complex Fire Camp
Incident overview	The last size estimation was 577 hectares; however, the fire grew yesterday and an updated map and size will be posted once it becomes available. There are 54 personnel on site. 9 helicopters are assigned to the complex. This fire is classified as out of control.
Weather forecast	Today: Mainly sunny with smoke. Isolated afternoon thunderstorms with dry lightning MAX TEMP: 30° to 34° MIN RH: 15% to 25% WINDS: N-NW 10-20 km/h and 20 Gusting 40 km/h near Kelowna by afternoon CHANCE OF LIGHTNING: 30% DRY LIGHTNING: 20% Poor overnight recoveries: 40-60%
Fire behaviour prediction	Anticipate very similar fire behaviour compared to yesterday. Expect fire spread to be slope driven unless terrain is less than 30% slope. Fire spread caused by winds will generally be in a southerly direction. RH's in the Garnet Valley are starting to close the gap with other areas. Expect them to be lower than the past few days.
Challenges	Ground crews continue to work in 33 degree heat with little to no shade in extreme terrain.
Yesterday's achievements	Hand guard has already undergone rehabilitation in order to try and return the landscape back to its natural state. Crews had a successful day laying hose into the middle of this wildfire (a spur line) in order to extinguish hot spots.
Today's objectives	Crews will continue to focus their suppression efforts on the south flank by extinguishing any heat they find while patrolling. The north flank will begin to undergo a demobilization of equipment.
<p>Out of Control: Describes a wildfire that is not responding (or only responding on a limited basis) to suppression action, such that the perimeter spread is not being contained.</p> <p>Being Held: indicated that (with the resources currently committed to the fire) sufficient suppression action has been taken that the fire is not likely to spread beyond existing or predetermined boundaries under the prevailing and forecasted conditions.</p> <p>Under Control: The fire has received sufficient suppression action to ensure no further spread of the fire.</p> <p>Out: The fire has been extinguished.</p>
