

# WILDFIRE UPDATE

## Comstock Lake Wildfire (G10696)

July 2, 2018

**Fire Size:** 2,750 hectares (estimated)

**Location:** 7km northeast of Comstock Lake

**Resources:** 119 firefighters, an incident Management Team, structural protection personnel, support staff and helicopters. A camp is now operational.

**Update:** Crews continue to make excellent progress on the Comstock Lake Wildfire. The recent cooler conditions have helped with suppression efforts. Firefighters are continuing to mop-up the small excursion that occurred last week and extend hose lay along the northeastern perimeter. Drones will be scanning this fire tomorrow to identify remaining hotspots using infrared scanning technology.

## Northwest of Batnuni Lake Wildfire (C10782)

**Fire Size:** 150 hectares (estimated)

**Location:** 15km northwest of Batnuni Lake

**Resources:** 54 firefighters, an incident Management Team and helicopters.

**Update:** Firefighters are continuing to mop-up this fire. Drones have scanned this fire to identify remaining hotspots using infrared scanning technology.

## 600 Road Wildfire (G40866)

**Fire Size:** 69 hectares (estimated)

**Location:** 22.5km northeast of Comstock Lake

**Resources:** 19 firefighters, an Incident Management Team and helicopters.

**Update:** Firefighters are continuing to mop-up this fire. Drones have scanned this fire to identify remaining hotspots using infrared scanning technology.
