Fire camp	Location: Sylvia’s Café on Nazko Road
Incident overview	<p><u>Status:</u> Out of Control <u>Size:</u> Mapped at 4517.3 hectares <u>Resources:</u> 89 fire fighters, 26 pieces of heavy equipment, 10 helicopters for Baezaeko Complex <u>Containment:</u> 50%</p>
Weather forecast	<p>Today: A mix of sun and cloud with isolated showers ending in the morning. Winds expected to be W-N 20 km/h with gusts 30 to 40km/hr for eastern sections. Minimum relative humidity (RH) 35 to 55%. With temperature highs of 13 to 18°C.</p> <p>Outlook for Monday to Wednesday: For Monday it is expected to be sunny with some high cloud moving through at times. With temperature highs near 20°C. RH in the 30s and 40s. Winds light. For Tuesday it is expected to be sunny with temperature highs of low to mid 20s. RH in the low 30s to 40s. Winds expected to be SW-SE 10 to 15km/h. For Wednesday as a low drifts into the central coast showers are likely. Temperature highs in the upper teens. Winds light SW-SE.</p>
Fire behavior prediction	Rain amounts varied between the fires. Fire is wicking along higher fuels and is finding pockets of fuel. Rank 2 and 3 was observed yesterday in fuel loaded areas. The same is expected for today. Rank 2 is a low vigorous surface fire. Rank 3 is a moderately vigorous surface fire.
Challenges	The recent precipitation will aid the crews in their fire suppression efforts so they will have fewer challenges today.
Yesterday’s achievements	The crews now have this wildfire 100% guarded.
Today’s objectives	Crews will be monitoring and patrolling this wildfire. They will continue with mop up the northwest excursion and in the south. Crews are also mopping up the contingency guard from the southwest to the southeast, and the northeast corner. Specialists are conducting danger tree assessments and falling prior to crews commencing mop up in other areas.
Other	An Evacuation Alert and Order has been implemented by the Cariboo Regional District. For more information, please visit the Cariboo Regional District Website: www.cariboord.bc.ca

Definitions: Stages of Control

- Out of Control:** Describes a wildfire that is not responding (or only responding on a limited basis) to suppression action, such that the perimeter spread is not being contained.
- Being Held:** Indicates that (with the resources currently committed to the fire) that sufficient suppression action has been taken that the fire is not likely to spread beyond existing or predetermined boundaries under the prevailing and forecasted conditions.
- Under Control:** Indicates that the fire has received sufficient suppression action to ensure no further spread of the fire.
- Out:** Indicates that the fire has been extinguished.
