

Chilliwack Natural Resource District Danger Tree Application

If there is a tree(s) on Crown Land adjacent to your property, which you believe is a potential hazard or a Danger Tree, review the following:

1. If this is an emergency, in your own opinion, dial 911.
2. For non-emergencies, if the potential danger tree is:
 - a. On private land, contact the property owner to report it (or contact the municipality if you are unsure who the owner is).
 - b. On municipal land (for example in a city park), phone your municipality.
 - c. On Regional District land (or in a regional district park), phone the corresponding Regional District at:
 - i. Fraser Valley Regional District at 604-702-5000 or toll free 1-800-528-0061.
 - ii. Greater Vancouver Regional District at 604-432-6200
 - d. Within reach of a power line, power pole or transformer, call BC Hydro to report it at 1-800-BCHYDRO (224-9376)
 - e. Within reach of a road or highway, phone the Ministry of Transportation's Fraser Valley maintenance contractor to report it at 1-800-667-5122.
3. Otherwise, if you are within the Chilliwack Natural Resource District (refer to <https://www.for.gov.bc.ca/mof/maps/regdis/regdismap.pdf>) report the potential danger tree(s) to the District office by completing the following application and email it to forests.chilliwackdistrictoffice@gov.bc.ca.
 - a. If you are not within the Chilliwack Natural Resource District, use the map at the following website to determine which Natural Resource District to contact.
<https://www.for.gov.bc.ca/mof/maps/regdis/regdismap.pdf>

Chilliwack Natural Resource District Danger Tree Application

Applicant's Details

Applicant's Name (The applicant must be the legal owner of the residence listed in this application)

First

Last

Address (This address must be the residence adjacent to the danger tree(s))

Street Address

Address Line 2

City

Postal Code

Phone

Email Address

Number of danger trees to be cut

Describe where the danger tree(s) are in relation to your property:

Describe why the tree(s) are a hazard to your property:

Once notified of a potential danger tree, the Chilliwack District will review your request and appropriate measures will be carried out in order of priority (highest risk first) and based on available funding/resources.

Alternatively, should you have the capacity to safely take care of the potential danger trees yourself, preferably through a qualified tree removal service; we will give you authority to remove the tree(s) if the Chilliwack District is satisfied the tree is a potential hazard. While there is safety considerations and costs involved, addressing the hazard tree through your own means will ensure it is done to your satisfaction (e.g. timing, method etc.).

If you have any questions, contact the Chilliwack Natural Resource District at 604-702-5700 or by email at forests.chilliwackdistrictoffice@gov.bc.ca.
