

Erratum* to the 2001 Summary of Backlog NSR and Impeded Forest Land

The 2001 Summary of Backlog NSR and Impeded Forest Land provided estimates of the provincial impeded land. Impeded forest land is defined as backlog areas that are satisfactorily restocked but are not yet free growing or not yet declared free growing. A re-evaluation of the database query revealed that the query included rather than excluded the not satisfactorily restocked (NSR) backlog. This significantly inflated the estimate of the impeded landbase. This erratum provides estimates from a revised query that excludes the NSR.

Replacement pages are provided for Table 3, page 9 and Appendix 4, pages 58 through 60.

* Erratum release date, December 5, 2001.
