# RFT Application 2

## Conditional registration as an RFT (unrecognized diploma or no diploma)

In British Columbia, the *Foresters Act* defines the practice of professional forestry and limits its practice to members of the Association of BC Forest Professionals. Registered Forest Technologists are entitled to engage in aspects of professional forestry practice under terms and conditions set out in the *Foresters Act*, association bylaws and *Guidelines on Scope of Practice for Registered Forest Technologists*.

This application package is for RFT applicants applying for conditional registration as a Registered Forest Technologist who have an unrecognized diploma or no diploma. If you are unsure whether you qualify for this route of entry, refer to the brochure "Become a Registered Forest Technologist" and the *Forest Technologist Transitional Policy*. Both documents are available on the association's web site ([www.abcfp.ca](http://www.abcfp.ca)).

### Important Deadline

To qualify for this route of entry, your application must be received before **November 30, 2005**. From December 1, 2005 onward, the only way you will be eligible to either enrol as a Trainee Forest Technologist or conditionally register as a Registered Forest Technologist is to have a recognized diploma.

### What's Next?

Once your application has been assessed by the Board of Examiners, you will be contacted by the Registration Department who will provide you with instructions on the next steps in the membership process.

### Forms Included with this Package

This package includes all the forms necessary to apply for conditional registration as an RFT. Use the checklist provided on the next page to ensure your application is complete and accurate.

- Application for Membership
- Work History
- Indictable Offence Declaration
- Confidential Work Experience Report (3)
- Confidential Character Reference (2)
- Application and Membership Fees

**Mail your completed application to the registration department. Only hard copies will be accepted. Digital or faxed applications will not be accepted.**

**Part B: Work History Detail**

A detailed account of the applicant's work history should be summarized in the Work History Detail on the next page. The Work History Details section consists of five columns which must include the following information:

1. **Start and End Date:** Provide start and end dates for each Work History Detail you have provided.
2. **Employer and Location(s):** Provide the name of the applicant's employer and the location(s) where specific duties were performed. Only provide examples of work experience obtained in the province of British Columbia, work experience gained outside of the province will not be considered.
3. **Position (job title or project name):** Provide the job title(s) or the name of the project(s) undertaken.
4. **Responsibility Level Rating:** Refer to the Responsibility Level Rating chart below to classify the position or specific duties undertaken by the applicant. A person's level of responsibility may progress over time while holding the same position. If this is the case, provide a separate job description for work done at each level of responsibility.

**Example 1:**

If the applicant has been working for 10 months and has progressed from responsibility level 3 to 4 while holding the same position (with the last three months at level 4), provide a description for the seven months spent at level 3 and a separate description for the three months spent at level 4. Under the description for the level 4 work experience, describe only the added responsibilities and duties.

If the job position has a mix of responsibility levels that were all held at the same time period, estimate the time spent at each level of responsibility and provide a separate description for each.

**Example 2:**

The applicant has been working for 10 months and the position falls mostly within responsibility level 4 but occasionally may fall within level 5. In this case, you would estimate and divide the time between the levels of responsibility therefore, the applicant spent eight months at level 4 and only two months at level 5.

Responsibility Level Rating	Description
1	Applies narrow technical or trade skills under close supervision or as part of a work team. Performs routine technical procedures and makes few decisions.
2	Performs routine narrow technical procedures with occasional direct supervision. Assumes limited responsibility for decisions.
3	Performs more broad/overarching technical tasks and solves higher-level problems drawing on a range of technologist education, knowledge and experience. Makes frequent decision and assumes responsibility for those decisions. Receives limited direct supervision.
4	Performs in complex technology areas. May require knowledge in more than one area of technology. Receives broad direction from supervisors and may educate other technologists and/or specialists.
5	Occupies a senior position requiring education, knowledge and experience of a technologist (vs. technician). May act as a consultant or be regarded as a technical expert in his/her field. Independently conceives programs and defines problems to be studied. Participates in the development of operation policies and program objectives. Involved in long-range planning.
6	Supervises the work of a team of technologists and/or other specialists. Ultimately responsible for projects. May fulfill senior management roles.

5. **Specific Duties Performed:** List specific duties the applicant has undertaken in each time period.

**Part C: Certification**

I recognize that under the *Foresters Act*, a person commits an offence if they apply for membership by a false or fraudulent representation and that a person commits an offence who knowingly assists another person to apply for membership by false or fraudulent representation. I therefore certify that the information provided in this form is true to the best of my knowledge and belief.
