Coding for Block/Plot Headers

REASON FOR SURVEY: B - billing, C - check, S - special purpose
 SNO: Y/N - Snow Pack: Y - yes (when logged), N - none
 Max. Stump Height: cm (DM prior approval letter)
 SECOND/OLD GROWTH: S - second, O - old
 GRADES: I - Interior, C - Coast
 PLOT TYPE: A - accumulation
 D - dispersed
 PLOT SHAPE: C - circular, S - square, R - rectangular;
 3 - 3P, X - 100% scale
 MEASURED %: blank - dispersed plots; for accumulations, 05-95 (5% to 95%),
 00 - 100%

Coding for Plot Tallies

SEGMENTS: repeat piece number
 BORDERLINE CODE: blank - completely inside plot, B - borderline piece, X - length
 exceeds plot width
 SPECIES: use the scaling codes: FI, CE, HE, BA, SP, CY, LO, WH, WB, YE,
 LA, AL, AS, BI, CO, MA, OT
 KIND OF MATERIAL: L - log, slab, sliver, chunk, S - stump,
 D - down tree/snag, U - short fork or slab (< min. log length),
 T - tree/snag, B - breakage (< min. log length),
 W - bucking and trimming waste, X - special product (shake bl.)
 WASTE/RES. CLASS: A - avoidable, U - unavoidable
 END CODE: B - broken, C - cut (bucked), N - natural (min. cutting specs. -
 pencil bucked), U - felling undercut (butt)
 DECAY TYPE: blank - none, H - heart rot (through), T - top rot, B - butt rot,
 R - ring rot, C - conk rot, P - pocket rot, S - sap rot
 GRADE Coast - U, X, Y, 5 (dry Y); Interior - blank (sawlog), 3, 4, 5
 CODED COMMENTS: BK - bunch knots and burls LB - long butt, avoidable
 BR - buried bucking waste
 CA - candelabra (pre-poling)
 CL - culvert log SA - sapling
 CR - severe crook or pistol grip SB - shake block/fence
 DP - "dead potential" (inv. classif.) post
 DU - "dead useless" (inv. classif.) SL - slab
 FK - fork US - unsafe
 FL - fluted butt WF - windfall
 WS - windshear
